

Chic, Chic Air

Chic Tables

profim

"Both Chic and Chic Air try to propose a good answer to a heavy contract furniture in a domestic suit. Chic tends to be more sensual, elegant, classic, classy, as Chic Air fits a minimalistic approach with character and universality."

Christophe Pillet
Product Designer

Chic Air collection:

reddot design award
winner 2017

Minimalism. Lightness. Elegance.

Chic

Lightness, elegance and universal design – these are the distinctive features of the Chic collection. A delicate cross-section of the chair makes it look unusually light. The Chic family includes a chair with a thin, metal frame, either with 4-legged base or wooden legs, as well as a swivel armchair with memory swivel return feature or regular with glides.

Unusual spaces call for unique furniture. Our impressive chairs and armchairs from the Chic collection do not overwhelm the interior, yet their subtle profile and pure form are conspicuous.

Elegance and harmony

The Chic chairs are compact in form and universal in style, which is essential in less formal, but still elegant spaces, such as hotel rooms, cafés, restaurants, lounges or office lobbies. There are tables to go with the chairs: a well-matched set which makes any space look harmonious.

Functionality and quality

4-legged chairs are a perfect match for spaces where functionality and beauty are equally important, such as conference rooms and representative office spaces. Memory swivel return feature allows keeping chairs in order.

A moment to relax

The aesthetic and subtle form of Chic armchair invites you to unwind and is perfect for meetings in a casual atmosphere.

The armchairs are designed for relaxation zones. The profiled shape of shell and soft foam allow you to rest in full comfort.

Chic Air

The Chic Air furniture is extraordinarily elegant and distinguished by minimalistic, sophisticated form. The collection includes compact chairs and benches as well as matching distinctive armchairs. Every model is available with a thin, metal frame or on wooden legs.

reddot design award
winner 2017

Refined and carefully considered lines as well as original foam shape, hard to achieve, make the chair a real eye-catcher in the room. Chic Air was inspired by the need for seats matching modern and minimalistic spaces.

Geometry of shape

The collection is based on angular, geometric forms and on the delicate cross-section of the frame supporting the chair. The Chic Air armchairs are perfect for those who plan to furnish a lobby, office or lounge with unusually comfortable, distinctively designed chairs with top-notch seat finishing.

The perfect match

Original slim cross-sections of the Chic Air chairs are a result of an advanced process of joining two shells, while concealing their connecting elements. What makes the collection even more special is the possibility of joining two different kinds of upholstery – high quality leather on outer side and soft fabric inside.

Chic Tables

The collection includes a wide range of bases, shapes, heights and table-top sizes. Thanks to a large number of finishes available, tables may be customised. The tables will therefore match any space without disturbing its décor and integrity.

Stylish diversity

The Chic tables are a natural complement to the Chic and Chic Air furniture. Harmonious, elegant style and light form of tables and chairs create a holistic space arrangement. Four available table top finishes – ceramic, glass, wooden or metal – allow you to create the interior in any style.

Profim and the Environment

In our operation we follow the sustainability principle. We operate in a responsible manner for the benefit of our customers, employees, suppliers, and the local community, but we always respect the environment.

In order to achieve our goals, we have implemented Environmental Management System based on the ISO 14001 standard, which allows for a comprehensive approach to ecology. We take into consideration and evaluate the way Chic products affect the environment during their entire life cycle.
