DESIGNER

CHRISTOPHER SCHMIDT
ITO DESIGN

Accis^{Pro} is a chair for those people who care about keeping healthy position while sitting. It refers to the current trend so called “active sitting”. Both; the seat and the backrest adapt to the user’s body movements not to burden the spine.

Technologically thoughtful chair

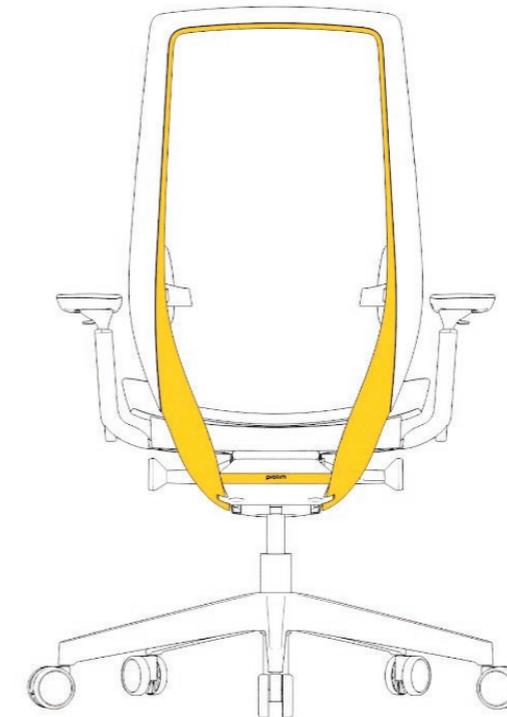

A contemporary chair must be modern not only in terms of design but above all, in terms of thought-out technological solutions.

This is Accis^{Pro}. Right at the design stage we put a lot of emphasis on innovative solutions and safety of the use.

Innovative solutions SmartHPS

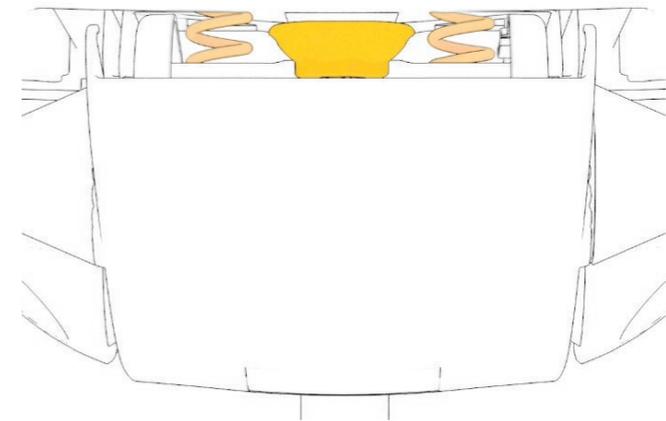

BACKREST SIDE MOVEMENT:

- sphere-joints system connecting the backrest with the mechanism
- backrest side movement function totally independent from the seat movement
- backrest's return to the basic position is possible thanks to the rod working as a classic spring

Innovative solutions SmartHPS

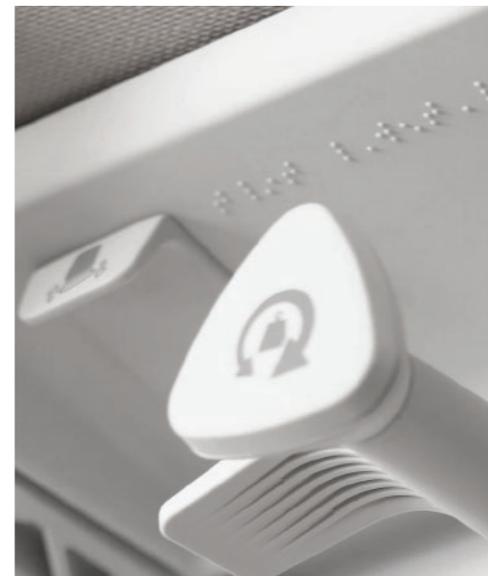

SEAT SIDE MOVEMENT:

- sphere-joint mounted in central part of the seat
- two springs mounted in the back part of the seat, so there is no impression of instability as in the case of simplified systems of the competition
- seat side movement function totally independent from the back movement
- seat movement function can be blocked

Smart design

Unobtrusive buttons, well marked knobs, Braille markings, covers for your safety. Not much? Even the smallest detail matters to us.

Exceptional armrests

Height adjustable
(100 mm)

Armpad front-back
adjustment
(50 mm)

Armpad side movement
adjustment
(27 mm)

Armpad pivot adjustment
(+/- 27°)

Technical data

mesh backrest
(frame made of polyamide with glass fibre)
enabling free air circulation while sitting

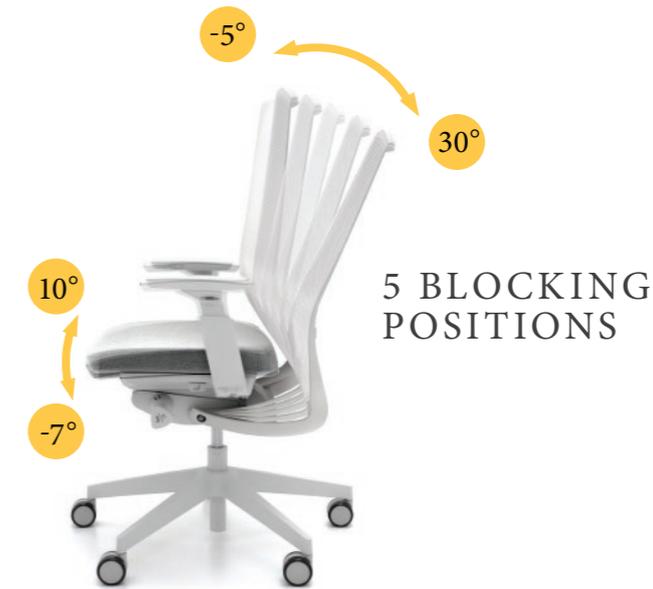

mesh types: Runner and Rhythm.
Option: height adjustable lumbar support
with 2-stage depth adjustment

Seat with side movement function,
with possibility of blocking.
Foam density 75 kg/m³.

Gaslift with cushion
improving sitting comfort.

5-star base,
polyamide or aluminium.

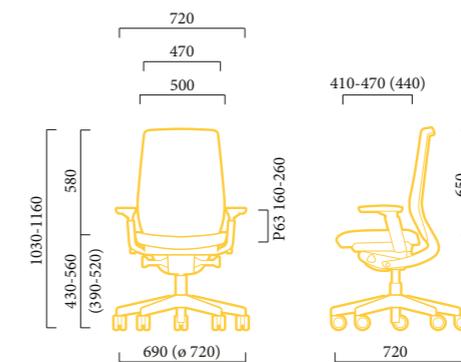

Castors: hard or soft, with a brake.
Option: teflon glides, always black.

5 BLOCKING
POSITIONS

Synchro mechanism with additional features:

- seat depth adjustment
- forward seat tilt

Product versions

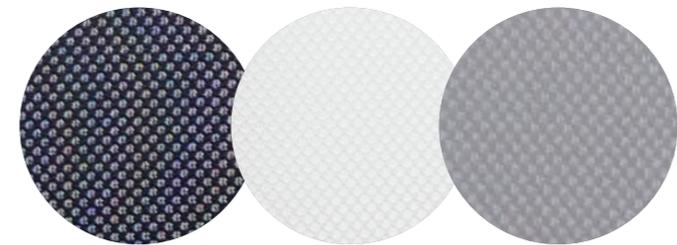

Accis^{Pro} 150SFL black P63PU

Accis^{Pro} 150SFL light grey P63PU

MESH COLORS:

RH-16
RU-16

RH-17
RU-17

RH-15
RU-15

BACKREST TYPES:

with lumbar
support

without lumbar
support

Certificates
